

Gazelle

DUAL IGNITION

Capture a new breed.

Gazelle Sports Coupe.

Introducing a new breed.
The new Dual Ignition Gazelle by Nissan.

And never has a car been more aptly named.

Take the new Gazelle Sports Coupe, for instance. As you can see, it's sleek... graceful... elegant. Just like its beautiful namesake.

New Nissan Gazelle Sports Coupe not only looks high-spirited — it is. On the move, it's very fleet with an all-new Fuel-Injected 2-litre engine with unique Dual Ignition. A 5-speed overdrive manual transmission is standard. Or, you can opt for a 4-speed overdrive auto with "lock-up" torque converter that gives you automatic convenience with manual-like response and economy.

Inside, it's very roomy and comfortable. And very luxurious. A special option pack consisting of air conditioning, power sunroof and power steering is available on the Coupe at extra cost.

Otherwise, everything else is standard, including cruise control for driving convenience, a 6-speaker AM/FM radio/cassette player with electronic tuning, Dolby noise reduction and diversity antenna for constant FM signal strength, power windows, power-controlled exterior mirrors, heated rear window with timer, and time-delay interior lighting.

Plush, reclining front bucket seats are fine-recline adjustable and feature lumbar support for the driver. Luxury cloth trim extends to headlining and sunvisors. There's even carpet in the load area. In fact, no other car in its class offers more luxury, more features than Gazelle Sports Coupe.

Swift. Nimble. Smooth.

Beneath Gazelle's sleek good looks beats a powerful heart: a brand-new Dual Ignition, Fuel-Injected 2-litre, 4 cylinder OHC engine that is the very latest in lightweight, fuel efficient design from Nissan.

It has an exceptional power-to-weight ratio, achieved through the use of the most advanced lightweight alloys available today. Hemispherical combustion chambers and "high swirl" intake ports, combined with electronic Fuel Injection and Dual Ignition, help achieve an outstanding level of power and torque. Dual Ignition simply means

Gazelle Sports Coupe (sun roof illustrated is optional at extra charge).

that each cylinder has two spark plugs, so fuel burn is faster, more thorough, resulting in greater responsiveness and fuel savings with less emission.

In transmissions, a smooth 5-speed manual with 5th gear overdrive is standard. The all-new optional 4-speed overdrive automatic incorporates a "lock-up" torque converter. This means that from 78 kph in top gear, the torque converter "locks-up" so that drive is direct from engine to transmission. Thus eliminating conventional automatic slippage and reducing engine speed for fuel economy.

Gazelle scores high in road handling ability. McPherson Strut front suspension, anti-sway bars front and rear, rack and pinion steering and steel radial tyres give it superior handling ability for spirited driving. The combination front disc-rear drum brakes, with disc pad wear indicator, assure smooth, controlled stopping power.

The overall result is a technically advanced blend of performance, comfort and handling. With sophisticated styling and luxury to please.

Gazelle Liftback.

Settle into its plush, deep foam bucket seat with lumbar support. Buckle up and grip the tilt-adjustable soft-feel steering wheel. An exciting ride and handling discovery is at hand. The new breed Gazelle Liftback is meant to run.

The sleek, lean shape, as you can see, is clearly aerodynamic. It offers the same performance, handling and ride characteristics that make the Coupe so quick, and sure-footed.

It also offers most of the creature comforts of the Coupe, at a lower price. There's a 4-speaker electronic AM/FM stereo radio/cassette player with Dolby noise reduction for your listening enjoyment. Remote control fuel lid and liftback release for convenience. Luxury cloth trim and cutpile carpet throughout for comfort. Instrumentation includes tachometer, low fuel/door ajar lamps and digital clock. The rear window is heated and has a wiper/washer. The split-fold rear seat can be used with one side down, or both. And luggage retaining straps are included to keep everything secure. All this, and more, is standard. In fact, the only optional extras available are the 4-speed automatic transmission and special options pack consisting of air conditioning, sunroof and alloy wheels.

Gazelle Liftback

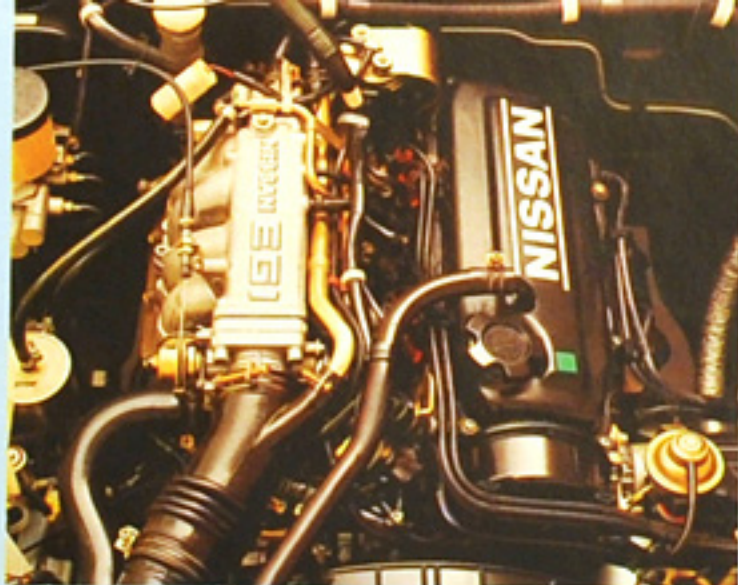

The impressive dash layout in the Sports Coupe.

Gazelle Sports Coupe features luxury cloth seat trim and ample interior room.

At the heart of Gazelle's performance is the Dual Ignition, Fuel-Injected 2.0 litre engine.

Engine:
Type CA 20 E, 2.0 litre, 4 cylinder, fuel injected - 2 plugs per cylinder OHC.
Bore x Stroke: 84.5 x 88 mm.
Capacity: 1974 cc.
Max. Power: 78 kW @ 5,200 r/min (DIN).
Max. Torque: 160 Nm @ 3,200 r/min (DIN).
Compression Ratio: 8.5:1.

Fuel System:
Electronic fuel-injection, viscous paper type air cleaner. Electric fuel pump.
Tank capacity: 53 litres.

Transmission:
Manual: 5-speed with overdrive on 5th gear. 1st: 3.592 2nd: 2.057 3rd: 1.361 4th: 1.000 5th: 0.813 Rev: 3.657 Final Drive: 3.700
Auto: 4-speed with overdrive 4th gear, lock-up torque converter. 1st: 2.842 2nd: 1.542 3rd: 1.000 4th: 0.686 Rev: 2.400 Final Drive: 3.889

Brakes:
Power assisted hydraulic system, operated through tandem master cylinder with vacuum assist, rear brake pressure proportioning valve and disc brake pad wear indicator.
Front: Disc.
Rear: Drum.
Parking brake mechanically operated on rear wheels via central pull-up lever.

Suspension:
Front: Independent McPherson Strut type, shock absorbers, stabiliser bar.
Rear: Solid axle, 4 link with stabiliser bar.

Steering:
Variable ratio rack and pinion. (Manual).

Wheels:
Liftback: 5 J x 14 styled steel wheels with wheelcovers.
Coupe: 5.5 JJ x 14 alloy wheels.

Tyres:
185/70 HR 14 steel radial tyres.
